Photos of your landscape problems needed by August 31!

Send an email to Master Gardener Al Cook at al_nancy@comcast.net
In the email, describe the landscape problem you would like the team to discuss. Attach a digital photograph to the email (jpg format preferred). You do not have to be a professional photographer, but try to get as clear a picture as possible so that it can be projected on a screen at the seminar. Please just one landscape problem per person.
